and NSD File No. L-00-72.

Dear FCC:

This increase is going to make it impossible for anyone to have a Tracfone cell phone. Increasing a fee to a company; allow with so many others pays very high costs as it is at this moment...

I would like to ask not to put any further increases on tracfone service, it's a great cost to all cell phone holders and if anything with all the phones out there costs should be lowered, not higherd -thank you sincerely Paul

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Paul eline
